

Pouches and Tabs

Integrated printing solution

Pouches and Tabs

Integrated printing solution

TRESU's integrated printing solution for water-soluble detergent pouch lines enables manufacturers to meet the latest safety requirements, promote consumer protection and maintain single-pass production with no extra handling required.

- Designed with the highest levels of automation for controlled, precise print speed and ink flow
- Fully servo-driven
- Self-regulating ink supply system
- Customised to the speed of the pouch-filling process
- A register module maintains precise positioning of fine text automatically throughout the production run
- A control system stores and instantly recalls job recipes, so no re-entry of ink and calibration data is needed
