

## **Quality comes from experience.**

To us quality is not a buzz word – it is the entire foundation of our technology.

For 40 years the reliable and proven design of TRESU printing technology has proved itself and it remains today the preferred and most efficient choice in the industry of printing.

At TRESU we understand why the right equipment and the right genuine parts will extend your performance in the long run.

To us quality is not just a key to market access - it goes far beyond that.

We are committed to comply with legal requirements and binding obligations as well as to provide the necessary resources to meet this.

In all processes, from ordering to delivery of the product or service, we take into account, ensure and prioritize quality-, environmental-, working environment conditions.

Quality arises in the consciousness of employees. This leads to continuous improvements and optimization, in all TRESU procedures and policies when and if possible.

Naturally TRESU is ISO 9001:2015 certified.
