TRESU Ancillary

Product Program for Flexo Narrow and Mid Web

Flexo
Narrow / Mid
Web

TRESU Ancillary is the world's leading supplier of chamber doctor blade systems along with a wide range of high-performance ancillary equipment.

Our flexo narrow and mid web ancillary products are designed to help you achieve optimum performance of the printing process within the flexible packaging and label segments.

Make your way through the process ladder below and see the TRESU Ancillary solutions on offer for your new and existing flexo narrow and mid web printing and coating equipment.

SEGMENT

Flexible Packaging • Labels

SUBSTRATE

Paper

Foil

COATING/INK

Water Based • UV • Solvent

FORMAT

Web

MACHINE TYPE

CI • Stack • Inline • Single Unit

CHAMBER TYPE

P-Line

Aluminium or carbon fiber chamber with quick, pneumatic clamping of doctor blades and high quality doctoring.

E-Line

Aluminium chamber with eccentric clamping for fast doctor blade change and high quality doctoring.

CHAMBER SURFACE

HA-S

Hard Anodized-S surface with good repelling capabilities in connection with inking and cleaning procedures.

CFX

Ceramic surface for flexo printing with high corrosion resistance and efficient repelling capabilities in connection with inking and cleaning procedures.

CFC

Carbon Fiber Chamber with unique ink-repellent surface and high corrosion resistance for extra protection against ink and detergents.

SUSPENSION

UniPrint B

Universal, robust and stable BEAM suspension with easy access and maintenance.

FlexiPrint IMW

Compact, streamlined suspension with FlexLoc mechanical loading for easy handling.

FlexiPrint Basic

Standardized, compact suspension with easy access manual loading.

FlexiPrint Reservoir

Standardized or customized suspension, with easy access manual loading. No ink pump.

COATING/INK PUMP

F10 iCon • F1 Basic

Fully automatic ink supply system • Basic Ink Pump

CONDITIONER

Not in Demand

DRYING

Hot Air • Customized Solutions

Customized infrared and hot air drying

CLEANING

F10 iCon

Fully automatic integrated cleaning

PRINTING PLATE CLEANING

Only Tissue/Non-Woven

CHILLING

Cleaning during production

Standard or Customized Solutions

High-performance process and temperature control
